Progress in the old cases involving military personnel for the week ending 4th March 1944

Regarding the accident that occurred on 14th February 1944 (Sl.No.6 in the report for the week ending 19th Feb.44) near Krishnarajapuram causing injury to eight military personnel and one civilian cyclist, it is reported that the scene of occurrence is at the eighth milestone, Whitefield Road, and not on Krishnarajapuram overbridge and the occurrence was purely accidental in as much as the lorry took a turn to a side to avoid a cyclist who suddenly appeared in front of the lorry. The information given by the Sepoy regarding the three deaths occurred is since verified to be false, as no death has occurred to persons injured in this incident.

Regarding the assault on one Chinnappa of Avalahalli by Sepoy Kala Khan, "Y" Tank area (Crime No.130 of 43 of Hosakote Taluk), it is reported that the holding of the identification parade was ineffective and Chinnappa who has since been discharged from the hospital could not also throw any more light in identifying the culprit who stabbed him. Besides, the Units concerned have since left the "Y" tank area. The case therefore goes undetected for want of proof of identity of the accused.
